

Петър Димитров Георгиев е завършил образователно-квалификационна степен „бакалавър“ – специалност Химия и физика и магистърска програма „Наноматериали и нанотехнологии“ във Факултет химия и фармация на Софийския университет „Св. Климент Охридски“.

През 2014 г. защитава докторска дисертация на тема: „Кинетика и синтез на златни наночастици в присъствие на метални йони с нов подход за охарактеризиране и приложения във фотокатализата“.

Основна област на научни изследвания: Нанотехнологии, Атомно-силова микроскопия, Биополимери.

Научни публикации:

Travelling abroad:

Aristotle University of Thessaloniki, Chemistry Department, Physical Chemistry Laboratory, Greece, funded by NATO Science for Peace SfP977986 (2002).

COST Action: D43 Training School title: Surfaces: Interaction Forces and Engineering
Reference : ECOST-TRAINING_SCHOOL-D43-130410-000866 Training School dates: from
13-04-2010 to 16-04-2010 Location: Delft University of Technology (TUD), Dept. Chemical
Engineering, Julianalaan 136, Delft 2628 BL, Netherlands.
